

## **Novanet and Beyond Communications Find Added Strength In New Partnership**

**Ajax, Ontario—April 28, 2014:** Novanet Communications Limited (Novanet), a trusted provider of broadcast, wireless and satellite solutions; and Beyond Communications Inc (BCom) a satellite service provider operating a North American satellite network in support of rural and remote Enterprise business operations, jointly announced today the completion of Novanet's investment as an equal equity partner in BCom.

For more than 25 years, the Novanet team has designed, engineered and commissioned equipment installations and solutions for some of the country's largest networks for both national TV and radio broadcasters, as well as global telecommunication enterprises. During that time, Novanet has also built and operated dedicated SCPC and shared DVB and VSAT satellite hubs for both Ku and C band. Similarly, BCom's focus has been the operation of its North American carrier-grade satellite network to support large Enterprise clients in the mining and energy sectors. "We have had a long-standing and respectful relationship with the BCom management team" states Joe Uyede, President and CEO Novanet. "We now have high expectations for new market penetration once we share our strengths and obvious synergies". Ralph Misener, President of BCom adds "our partnership, with a mature, solutions leader like Novanet, will greatly assist in taking us to the next level with stronger and more versatile network service solutions".

The partnership will expand the companies' reach across the country. Together, Novanet and BCom will jointly have presence in Vancouver, Calgary, Toronto, Ottawa, Montreal and Quebec City.

### **About Novanet Communications Limited**

Novanet Communications Limited (Novanet) is a trusted provider of broadcast, wireless and satellite network solutions. For over 25 years, the Novanet team has designed, engineered and commissioned some of the country's largest broadcast networks for Canadian television and radio broadcasters and for a number of global telecommunications enterprises. Novanet's reputation for excellence has been earned through a commitment to exceed the needs of its client's requirements. Novanet's RF engineers, technicians and data specialists are the backbone of innovative service capabilities. They have pioneered numerous technologies in Canada and have a wealth of experience in building turnkey solutions as an integrator and valued partner to many "best of breed" manufacturers.
