

FOR IMMEDIATE RELEASE

## Novanet Communications Limited and Micronetixx Communications Announce Exclusive Reseller Agreement in Canada

LEWISTON, MAINE and AJAX, ONTARIO – March 26, 2012

Micronetixx Communications, of the United States, and Novanet Communications Limited today announced the appointment of Novanet as the exclusive value-added reseller (VAR) for their DTV broadcast antennas throughout Canada.

“We have been looking for a dynamic VAR for the Canadian market, who not only serves the broadcast market, but other market segments that we build equipment for” said Bill Ammons, Director of Sales and Marketing for Micronetixx Communications. “Our customers are telling us that Novanet is the one company with the solid engineering skill sets to solve their needs in Canada. We look forward to working with Novanet to provide the best solutions for the new frontier in digital TV broadcasting.”

Commenting on their new partnership, Joe Uyede, President & CEO of Novanet Communications said, “We are extremely pleased to team with Micronetixx Communications and offer their complete line of UHF and VHF transmitting antennas, that are of excellent quality and very cost effective. Now with Micronetixx in our line-up, we have an exceptional portfolio of products to provide best of breed solutions that suit our customers exacting requirements.”

Micronetixx Communications and the team from Novanet will be at the National Association of Broadcasters trade show in Las Vegas on April 14 to 19, 2012. Micronetixx’s booth number is C1405.

## About Novanet Communications Limited

Novanet Communications Limited was founded in 1989 and is a privately held Canadian company, located just outside of Toronto in Ajax, Ontario. Our team has designed, engineered, supplied, installed and commissioned some of the country's largest broadcast networks for Canadian television and radio broadcasters, and for a number of global telecommunications enterprises. Our reputation for excellence has been earned through Novanet's commitment to exceed the needs of client requirements. Our people have pioneered numerous technologies in Canada and have a wealth of experience in building turnkey solutions as an integrator and valued partner to many best of breed manufacturers. Novanet's RF engineers, technicians and data specialists are the backbone of our innovative service capabilities. Novanet Communications Limited is the trusted provider of broadcast, wireless, satellite systems and solutions.

## About Micronetixx Communications

Our Lewiston Maine based team is focused on building high quality DTV broadcast antennas. We have a number of proprietary and patent pending technologies that help set us apart from our competition. We are the leader in supplying low RFR antennas that can be used where other antennas can not. In addition to antennas we build a wide array of industrial microwave systems, components, and power metering equipment to over the 500 kW range at 915 MHz. High power RF is an everyday word at Micronetixx.
